

Notes to the notification of a license

Form

This form is a notification of a license, or of changes regarding a licensing agreement. Submitting this form is optional. The changes will only be recorded if the form is filled in correctly. If inadequate, the license will not be recorded and a new form must be submitted for it to be registered. It is sufficient to send a copy of the form as long as all the information contained therein is legible. Documentation of the licensing agreement's validity is not required. However, if you choose to submit documentation, and it exceeds 15 pages, it must be submitted electronically. Change of representative, name, address etc, must be submitted on separate forms. These are downloadable at patentstyret.no and must be submitted before sending in this form.

Subject area

Indicate whether the license concerns a trademark, design or patent. Separate forms must be submitted if the holder wishes to record licenses for different kinds of intellectual property rights.

Reference

To record a license, the application, registration or patent number must be submitted. Where applicable, also state the name of the trademark, design or patent concerned. For trademarks, if there are no verbal elements in the trademark, please indicate the type of mark.

Total or partial license

Check the box to indicate whether the license covers all or parts of the right. If the license does not cover the entire right, please specify the extent of the license in the following ways: For trademark, state the goods and/or services for which the license is applicable. For design, state which design(s) in a multiple registration the license applies to. The statements must be made in norwegian.

Scope of license

Indicate what kind of license the notification concerns. There are three different types of licenses: An **exclusive license** grants the licensee exclusive rights to exploit the intellectual property, and excludes the licensor from exploiting the intellectual property as long as the licensing agreement is valid. A **sole license** grants the licensee an exclusive right to exploit the intellectual property right, together with the licensor, as long as the licensing agreement is valid. A **nonexclusive** license grants the licensee a right to exploit the intellectual property right along with all the other licensees the licensor gives a license to.

Date of agreement

Indicate the entering or expiration date of the agreement.
